

## FINAL PROJECT INSTRUCTIONS FOR "CIVICS 101"

*Due for our final session, Wed., June 5, 9:30am-11am*

Prepare a PowerPoint presentation based on a topic, article or person found in [YES! Magazine #65](#).

Each presentation must contain the following elements/at least one slide per element:

- (1) Your name, cycle #
- (2) Summarize the main point of the article, person or program you are interested in from the magazine
- (3) What are they fighting for or what is the issue – one sentence PLUS at least two images that illustrate the problem
- (4) At least two charts or graphs that show the trend/data dramatizing the gravity and scope of the issue being discussed
- (5) Your solution – what should be done to solve/cure or stop the problem or lift up people so as to make the issue go away? Pretend you are going to solve this problem in Chicago. Please add images to bring your ideas to life – this can take a few slides to make it clear what you want to do.

Please upload your PowerPoint to [SlideShare](http://www.slideshare.net) (www.slideshare.net). This will require you to open a free account. When you have uploaded your presentation click on the options for sharing and make sure your presentation can be downloaded. Then email the URL for your presentation to Tom Tresser (tom@civiclub.us). **PLEASE DO THIS BY JUNE 2, 2019 AT THE LATEST.**

**Please practice your presentation and time it so that it is no more than 5 minutes. We will be pressed for time and so you will cut off at 5 minutes ☹.**
