[Please place names of people who are in each group]

Group 1
Members =Cecelia Sarah Valeria Zoya

Importance:
- It's not just about the community you're in, its about being globally aware of what's going on
- Important to be aware because it can protect yourself and the lives of others as well as our rights
- If people aren't speaking up, people aren't aware of issues: things are swept under the rug and a burning issue can turn into a bigger fire and devastating smoke
- It gives minorities a place to inspire change in the community and other people who might be affected by the same things
- It's important because you need to understand the government and its structure because it can save you

Why Pursue Civics:
- Protect our rights and our liberties
- Raise awareness
- Understand your government and the structure of the government because it can save you
- Foster deep thought and build a sense of responsibility
